

ERGONOMIC TELEMETRY MONITORING WORKSTATIONS

Telemetry monitoring staff spend long hours performing a life-critical service. Provide an environment that enhances their role.

CHALLENGES

- Long hours sitting & managing life-critical data
- Large, touch-screen arrays out of reach
- Time sensitive communications with clinical staff
- Cluttered, cramped and unorganized space

BENEFITS

1. Improve monitoring staff efficiency, communication and workflow
2. Enhance telemetry monitoring space utilization and organization
3. Enrich the health, well-being and morale of the telemetry monitoring staff

SOLUTION

Ergonomic,
purpose-built
workstations
from RedRick.

IS YOUR TELEMETRY MONITORING SPACE WELL THOUGHT OUT?

Improve the efficiency, health and well-being of your telemetry monitoring staff by:

- Positioning everything within reach
- Facilitating sitting and standing throughout the day
- Optimizing monitor height and distance to reduce visual fatigue
- Providing a clutter free environment

REDRICK SETS YOU UP FOR SUCCESS!

RedRick provides delivery and on-site assembly and installation of all our solutions. This includes connecting and routing of all computer systems and input devices that are integrated within our workspaces. We also provide comprehensive ergonomics training to ensure the benefits of your new workstations are fully realized.

WORKSTATION ACCESSORIES

Workstation accessories enhance productivity by:

- Minimizing clutter
- Enabling personalization of shared workspaces
- Keeping everything in arms reach
- Maximizing usable work surface area

"Many of the monitoring technicians, who work 12-hour shifts, complained about neck and back soreness and stiffness and swollen feet because they were sitting for so long, or had to move in awkward or inefficient ways to accomplish their daily responsibilities."

Clinical Director of Critical Care. South Carolina Health System
